

VIDEO SUBMISSION

DEADLINE: Monday, September 9, 2024, 11:59 PM EDT

SCVS has traditionally provided a diverse curriculum to maximize the educational value to its attendees. We are therefore offering attendees an opportunity to share unique vascular surgical and endovascular techniques to be presented during the upcoming SCVS Symposium.

We are looking for well-produced videos of vascular and endovascular procedures. Duration of the video should be 5 minutes in length and narrated. Please make sure that they illustrate well the technical nuances of your procedure. Your video for submission should have audio included and if possible, avoid specific Institutional references.

Videos will be accepted for the following categories:

- "How I Do It" videos about common vascular procedures that illustrate technique
- Unique, Interesting and Rare Vascular Case Videos

Please note: If accepted, changes cannot be made to the submitted video. If accepted you must send your video to the SCVS Administrative Offices at least two weeks in advance of the meeting. Videos will be pre-loaded to ensure playback and speakers can review their videos in the Speaker Ready Room prior to their session. No audio playback capabilities will be provided. The presenting author will need to supply all narration to the video itself.
